

## HAND-HELD METAL DETECTOR GS107

Hand-held metal detector GS107

Note of button:

- | Low sensitivity button
- | On/off button
- | Charge socket
- | Sound and vibration transform button

Leathery belt

Charger Battery

Technical specifications

Operating frequency: 20 KHz

Net Weight: 350g (including the battery)

Handle Dimension: 135mm X 45mm

Detect part: 250mm X 25mm

Size: 410mm X 80mm X 45mm (all max)

Sensitivity Adjustable: manual

Alarm Indicator: BZ, vibration motor

Battery: a 9v battery (can last long time)

Operating Temperature: -5 to +55

Detecting distance:

Razor blade: 10cm

Pen knife: 15cm

38Caliber hand gun: 20cm

Characteristics

- | It features simple operation, exquisite design, and convenient conservation
- | Leathery belt adopted, convenient to take
- | Low failure rate, can detect ferrous metal and non-ferrous metal
- | High sensitivity, can easily detect pin-sized metal articles (or even smaller metal articles).
- | Indication of low battery voltage: gives continual sound alarm or vibration
- | Alarm: sound and light alarm simultaneously, or vibration and light alarm simultaneously.
- | It's rechargeable with an additional charger (Usually 4-6 hours for charging)
- | When you press the low sensitivity on-off, it only alarms for big metal object

Use domain

For security use: detecting weapons, such as: knife, gun and so on.

For factory or store use: detect any metal articles on the workers' body

For examination place: detect forbidden tools, such as: telephone, electronic dictionary and so on.
