

Convenience and durability

With high flexibility design, simple structure, solidity and durability character, the screen is endowed with easy operating capability and lasting using span.

Easy up-down

The sustain-bar is equipped with screen handle-moving lock and tension lock system, the simplicity and utility made the product very easy to operate. For avoid the tripod be spoiled in the transporting way, please lock it by the toe-release after the tripod was retracted.

Keystone Eliminator

The keystone eliminator on the tip of the sustain-bar caters to the needs of different circumstances so that the screen angle can be adjusted to eliminate image distortion caused by keystoneing.
